

DOCUMENTAÇÃO DE INSTALAÇÃO OCR-SERVER NO UBUNTU SERVER 14.04.5 LTS

- **Atualizar o Ubuntu:**

`aptitude update && aptitude upgrade -y && aptitude update && aptitude dist-upgrade -y`

- **Criando a pasta que recebera os arquivos de instalação:**

`mkdir /Share && chown nobody -R /Share && chmod 755 -R /Share`

- **Limpar comentários do arquivo de configuração do samba e editá-lo:**

`mv /etc/samba/smb.conf /etc/samba/smb_orig.conf && grep -o '^[^#]*'
/etc/samba/smb_orig.conf > /etc/samba/smb.conf && vim /etc/samba/smb.conf`

Ao final do arquivo adicione:

[Share]

comment = Compartilhamento

path = /Share

browseable = yes

read only = no

guest ok = yes

- **Execute:**

smbd -s --configfile=/etc/samba/smb.conf

/Share/ocr-server/instala_tudo.sh

- **Habilitando na Inicialização do Sistema**

sysv-rc-conf
